### **DETAILED ACTION**

1. The following is an examiner's statement of reasons for allowance: The claimed spatial light modulator having stacked layers of deformable electrode pairs is not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Huignard et al (5652672) show for their optical modulator deformable cells but not the stacking principle.
